In 2014, the Shelby County Schools Board of Education adopted a set of ambitious, yet attainable goals for school and student performance. The District is committed to these goals, as further described in our strategic plan, Destination 2025.

By 2025,

- 80% of our students will graduate from high school college or career ready
- 90% of students will graduate on time
- 100% of our students who graduate college or career ready will enroll in a post-secondary opportunity.

In order to achieve these ambitious goals, we must collectively work to provide our students with high-quality, College and Career Ready standards-aligned instruction. Acknowledging the need to develop competence in literacy and language as the foundations for all learning, Shelby County Schools developed the Comprehensive Literacy Improvement Plan (CLIP) and the SCS Curriculum Maps for Arts Education.

Designed with the teacher in mind, the Health, Physical Education and Lifetime Wellness (HPELW) curriculum maps focus on teaching and learning in the domains of Perform, Create, Respond, and Connect. This map presents a framework for organizing instruction around the TN State Standards so that every student meets or exceeds requirements for college and career readiness. The standards define what to teach at specific grade levels, and the SCS HPELW Education curriculum maps provide guidelines and research-based approaches for implementing instruction to ensure students achieve their highest potentials.

The SCS HPELW Education curriculum maps are designed to create physically literate students by engaging them both individually and collaboratively in creative practices of applying, creating, communicating, collaborating and reflecting. To achieve these goals the curriculum maps were developed by expert arts teachers to reflect the conceptual framework of the four artistic processes: present, create, respond, and connect.
How to Use the HPELW Education Curriculum Maps

The SCS HPELW Education curriculum maps are designed to help teachers make effective decisions about what content to teach and how to teach it so that, ultimately, our students can reach Destination 2025. Across all HPELW disciplines, this is generally reflected in the following quarterly framework:

Course Description: This reflects the primary goals of the students to master basic skills and concepts that build upon previous knowledge which occurs as a result of physical activity.

State Standards: Students will be introduced to the following areas: movement, movement concepts, physical activity, fitness and personal/social responsibilities.

Essential Learnings: This section focuses on student outcomes and expectations

Effective Components of HPELW: This section provides State and Local laws,

Assessments: The educator will provide students with content, skill topics, SPIs and suggested timelines, with the appropriate assessment strategy; pre and post skill assessment, teacher observation, product and performance, self analysis, oral and or cognitive quizzes, fitness gram, pacer, student-lead peer modeling, peer observation and portfolio student growth measures.

Physical Education Vocabulary Terms: Educators are provided grade appropriate and content specific terminology used within a HPELW classroom

Essential Guiding Questions: Generally phrased similar to “I Can” statements, this portion identifies the specific performance indicators that are expected for students at a given time within the quarters/semester.

Tennessee-Shelby County Content Standards per grade band.

HPELW Quarterly Pacing Guides: SPIs, suggested timelines content skill, topic and task.

Sample Games and Activities with Literacy connections

Resources And Interdisciplinary Connections: In this column, teachers will find rich bodies of instructional resources/materials/links to help students efficiently and effectively learn the content. Additionally, there are significant resources to engage alignment with the Comprehensive Literacy Improvement Plan (CLIP) and HPELW activities are designed to strengthen authentic development of communication, listening, research, collaboration and content reading literacy in HPELW in supporting the District’ goals for improving student literacy.

Throughout this curriculum map, you will see high-quality activities, strategies and resources to support in ensure that students are able to reach the demands of the standards in the classroom. In addition to the resources embedded in the map, there are some high-leverage (technology, online)resources available for teacher use.
National Standards for K-12 Physical Education

The goal of physical education is to develop physically literate individuals who have the knowledge, skills and confidence to enjoy a lifetime of healthful physical activity.

To pursue a lifetime of healthful physical activity, a **physically literate individual**:

- Has learned the skills necessary to participate in a variety of physical activities.
- Knows the implications and the benefits of involvement in various types of physical activities.
- Participates regularly in physical activity.
- Is physically fit.
- Values physical activity and its contributions to a healthful lifestyle.

**Standard 1.** The physically literate individual demonstrates competency in a variety of motor skills and movement patterns.

**Standard 2.** The physically literate individual applies knowledge of concepts, principles, strategies and tactics related to movement and performance.

**Standard 3.** The physically literate individual demonstrates the knowledge and skills to achieve and maintain a health-enhancing level of physical activity and fitness.

**Standard 4.** The physically literate individual exhibits responsible personal and social behavior that respects self and others.

**Standard 5.** The physically literate individual recognizes the value of physical activity for health, enjoyment, challenge, self-expression and/or social interaction.

Diamond Conceptual Framework: A K-12 Road Map for Physical Education

The diamond shape helps illustrate the progression of skills and concepts taught in physical education, which are guided by national and state standards and research on physical activity and physical education.

Students should first learn the fundamental skills needed to be successful in physical activities, just as they would need to learn to read before tackling Mark Twain. Next they should experience a variety of activities with the goal of finding a few they enjoy. We wouldn't want them to go through life thinking the only way to stay healthy and fit is by running, playing basketball, and/or lifting weights. Lastly, we want them to become proficient in a few chosen activities with the hope that they will continue to participate in them throughout their lives.
SCS Elementary Physical Education Curriculum Map

This curriculum map has been developed and reviewed by SCS Elementary Physical Educators. The objective of the plan is to provide direction to ensure cohesion and full implementation of the Tennessee State Physical Education Standards across the district. Standards 1 and 2 are skill and activity specific and are divided into units within this plan. Standards 3-6 covers a variety of topics for both inside and outside physical education/activity. These standards include fitness, safety/procedures, as well as social/emotional wellness and should be implemented daily throughout the course of the year.

<table>
<thead>
<tr>
<th>Standard</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Standard 3</strong>: A physically educated person participates regularly in physical activity.</td>
<td>These SPI’s focus on activity outside of physical education. The teacher should support and encourage this with students throughout the year.</td>
</tr>
<tr>
<td><strong>Standard 4</strong>: A physically educated person achieves and maintains a health enhancing level of physical fitness.</td>
<td>Fitness SPI’s should be incorporated into each lesson. This can be accomplished through a warm-up activity or in the overall activity.</td>
</tr>
<tr>
<td><strong>Standard 5</strong>: A physically educated person exhibits responsible personal and social behavior that respects self and others in physical activity.</td>
<td>These SPI’s focus on thoughts, feelings and behaviors in physical education and should be implemented and reinforced throughout the year.</td>
</tr>
<tr>
<td><strong>Standard 6</strong>: A physically educated person values physical activity for health, enjoyment, challenge, self-expression and/or social interaction.</td>
<td>These SPI’s focus on enjoyment and personal value of physical education and should be implemented and reinforced throughout the year.</td>
</tr>
</tbody>
</table>

When implementing this curriculum map, each physical educator should strive to:

- Be actively engaged in the instructional process whether in the role of lead or assisting teacher.
- Use a variety of assessment techniques when determining mastery of the SPI's/Outcomes. This can be accomplished using a combination of formal, informal, peer, and/or self-assessment, video performances, skill rubrics or cognitive assessment measures.
- Use best practices when introducing a new skill which includes demonstrating the skill, identifying the critical elements/common mistakes, and then allowing for student practice in static situations. This process should be accompanied by timely and specific feedback.
- Use appropriate culminating activities to allow the students to combine multiple skills in game-like situations. This should allow the students to take their skill development to a higher level by allowing them to apply the skills in dynamic situations.
- Use appropriate classroom management techniques in order to maximize "tasks" and strive to keep the students active for a majority of the lesson.
- This can be accomplished by minimizing wait-time, planning for smooth/efficient transitions, and creative use of equipment.
- Engage in reflective analysis of instruction and frequently collaborate with others.
# Curriculum Map

## Physical Education

**Pre-K – Grade 2**

---

**What Does The Curriculum Map Contain?**

### EXAMPLE

<table>
<thead>
<tr>
<th>Unit of Instruction</th>
<th>Description</th>

UNIT 1: LOCOMOTOR & NON-LOCOMOTOR MOVEMENT CONCEPTS

Unit Objectives/Enduring Understandings
Demonstrates mature form in a variety of locomotor movements and maintains a rhythmic pattern while performing a variety of locomotor and non-locomotor movements.

Guiding Questions:
- Why is the development of motor skills essential during childhood?
- Why is it important to have strong muscles?
- What changes happen to my body when I am physically active?
- What does consideration for and cooperation for classmates and teachers look like in physical education class?
- Why is the development of motor skills essential during childhood?

Discussion
- Safety and comfort during activity.
- Gymnastics and the concept of balance.

Purpose of Activities
Students will participate in locomotor movement skills using different parts of their body to balance. Students will work cooperatively with their partners while working on activities.

Connections ELA
- Classifies information into categories
- Communicates ideas in a respectful manner.

Technology Implementation
Smart Board, video

</tr>
<tr>
<td></td>
<td>• Chasing, fleeing, and dodging</td>
<td>• Move at fast and slow speeds</td>
</tr>
<tr>
<td></td>
<td>• Cardinal directions (north, south, east, west)</td>
<td>• Show strong and light force. The general space and Horizontal pathways for cardiovascular activities</td>
</tr>
</tbody>
</table>

### Content Objectives

**Fundamental Skills**

**Maintains a steady beat from a non-locomotor position (e.g., swing, sway, and patting thighs while seated)**

- Travels using basic locomotor movements (i.e., walk, run, jump, slide, and gallop) demonstrating proper technique
- Maintains a steady beat from a non-locomotor position (e.g., swing, sway, and patting thighs while seated)

### Instructional Actions

- **Ball on Your Body**

### Assessment

- Question/Discussion
- Skill Test
- Teacher Observation Peer Assessment Group Work
- Student Discussion
# UNIT 1: LOCOMOTOR & NON-LOCOMOTOR MOVEMENT CONCEPTS

### 2.5.4.D.1 Discussion
Discuss the characteristics of good sportsmanship and demonstrate appropriate behavior as both a player and an observer during physical activity.

### 2.5.4.D.2 Description
Describe activity-specific rules, explain their importance for the safety and enjoyment of participants, and follow the rules during physical activity.

<table>
<thead>
<tr>
<th>Task</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Safety</td>
<td>without falling or bumping</td>
</tr>
<tr>
<td></td>
<td>sway, and patting thighs while seated</td>
</tr>
<tr>
<td></td>
<td>Jumps and leaps a slowly moving stick or rope</td>
</tr>
</tbody>
</table>

**Academic Vocabulary:** shared space; travel safely

---

# UNIT 2: SPATIAL & BODY AWARENESS

### Unit Objectives/Enduring Understandings
Focus on Spatial Awareness while using Personal and General Space, Locomotor Movements using different pathways, directions and levels.

### Guiding Questions
- Can you demonstrate proper space awareness by moving safely through general space?
- Are you able to demonstrate your own personal space?
- Can you increase your ability to perform locomotor movements?
- Students will be able to increase their ability to move in different pathways, direction and levels.

**Discussion**
- Discuss the benefit of being aware of other people around you.
- Discuss how students can work together to keep a positive and safe atmosphere.

### Purpose of Activities
- Students will participate in gymnastics stunts, using different parts of their body to balance.

### Connections
- **English Language Arts Standards: Speaking and Listening**
- **Mathematics: Number and Quantity**
  - **CCSS K.CC.1** Count to 100 by ones and by tens.
  - **CCSS7.K.CC.3** Write numbers from 0 to 20. Represent a number of objects with a written numeral 0-20.
  - **CCSS K.CC.4** Understand the relationship between numbers and quantities; connect counting to cardinality.
- **Science**
- **Social Studies**

### Technology Implementation

**Safety**
## UNIT 2: SPATIAL & BODY AWARENESS

**PreK-2 SPIs**

- Participate in a variety of modified games, developmentally appropriate tasks, activities, creative movement, dance and play
- Students will learn to identify body parts and demonstrate safe movement to personal and general space.
- Students will be able to travel in different directions and pathways.
- Students will review and practice the concepts of body and spatial awareness.
- Students will transfer learning to perform a more advanced level of activities/games.

**Suggested Activities**

- Discuss locations of objects and where to find them
- Make objects closer or further away and compare the relationship of the distance between several objects
- “Robot Game”: directions are given to turn right, left or stop
- “Simon Says”
- “Freeze” students to stop; “Red Light” students to stop; “Yellow Light” students to slow down; “Green Light” students to go;
- Go over Scooter Safety – keep hands inside the handles to avoid bumps, when activity freezes scooter is to be place wheels up
- Space City
- Space Tag

- Make sure all balls are properly inflated  
- Never stand on any type of ball  
- Never throw or kick a ball at another student |  |

**Academic Vocabulary:**

### UNIT 4: BASKETBALL CONCEPTS

#### Unit Objectives/Enduring Understandings

Students will be able to understand that the proper mechanics of ball skills, development of eye-hand coordination, visual tracking, and balance will be attained by performing fundamental skills during the course of the unit.

#### Guiding Questions:

- What is a double dribble?
- What is travelling?
- What is dribbling?
- What is passing?
- What is shooting?
- What is the bounce pass?
- What is the chest pass?
- How are hand-eye coordination and tracking important when trying to catch a ball?

#### Purpose of Activities

- Students will participate in gymnastics stunts, using different parts of their body to balance.
- Students will work cooperatively with their partners on gymnastics mats to complete balancing activities.

#### Connections

- English Language Arts Standards: Speaking and listening
- Mathematics: Number and Quantity
  - CCSS K.CC.1 Count to 100 by ones and by tens.
  - CCSS7.K.CC.3 Write numbers from 0 to 20. Represent a number of objects with a written numeral 0-20.
  - CCSS K.CC.4 Understand the relationship between numbers and quantities; connect counting to cardinality.
## UNIT 4: BASKETBALL CONCEPTS

### Discussion
- Safety and comfort during activity.
- Gymnastics and the concept of balance.

### PreK-2 SPIs

**1.1.2** Receive or send an object with an implement or body part
- throw a ball demonstrating an overhand technique, a side orientation, and opposition
- catch a gently thrown ball using properly positioned hands

**1.2.16** Continuously dribble a ball using the hands or feet without losing control of the ball or body

**1.2.21** State and demonstrate guidelines and behaviors for basic safety principles in physical education (implements, small and large equipment, environment)

**2.2.2** Identify and demonstrate selected critical elements of manipulative skills demonstrate mature motor patterns for basic locomotor, non-locomotor and selected manipulative skills in structured settings
- apply basic skills in game-like situations
- acquire specialized skills basic to a movement
- form and use those skills with a partner
- use knowledge of movement concepts and principles to analyze the performance of self and others
- identify and implement the concepts of offensive and defensive strategies in a controlled game-like environment

### Suggested Activities
- Following The Leader
- Tag, You Are It
- Relay Time
- 3-Catch Basketball?
- Hoop It Up
- Sponge Bob Basketball
- Counting to Ten Basketball Game
- Treasure Island
- Danger Zone

| 2.5.4.D.2. Describe activity-specific rules, explain their importance for the safety and enjoyment of participants, and follow the rules during physical activity. | |

**Academic Vocabulary:** Dribbling, Passing, Shooting, Bounce Pass, Chest Pass, Traveling, Double Dribble,

### UNIT 5: EDUCATIONAL GYMNASTICS

#### Unit Objectives/Enduring Understandings
- Activities that allow the child to self-test or create movements that defy gravity to enhance components such as flexibility, balance coordination, and strength.
- Taught in a non-competitive manner, with emphasis placed upon the success and skills achievable by each individual student.

#### Guiding Questions:
- Have you ever heard the word gymnastics?
- Who can explain what it is?
- Have you seen gymnastics on TV?
- Have you participated in a gymnastics class?
- What kind of things do you learn in gymnastics?
- You’ve got the right idea, today we are going to explore different types of balance activities

#### Purpose of Activities
- Students will participate in gymnastics stunts, using different parts of their body to balance.
- Students will work cooperatively with their partners on gymnastics mats to complete balancing activities.

#### Connections
- English Language Arts Standards: Speaking and Listening
  - Create a routine
  - Listening, Viewing and Responding
  - Presenting, providing feedback and reflections
- Math: *axis*
- Science: *Gravity, Fulcrum, Lever, energy action, reaction, force*
### UNIT 5: EDUCATIONAL GYMNAS蒂CS

**Discussion**
- Safety and comfort during activity.
- Gymnastics and the concept of balance.

### UNIT 5: EDUCATIONAL GYMNASICS

**2.5.4.D.1** Discuss the characteristics of good sportsmanship and demonstrate appropriate behavior as both a player and an observer during physical activity.

**2.5.4.D.2** Describe activity-specific rules, explain their importance for the safety and enjoyment of participants, and follow the rules during physical activity.

**Academic Vocabulary:** strength, flexibility, balance, endurance, kinesthetic, agility, self-discipline, coordination, self-confidence, traveling, rolling, backward roll, shoulder roll, tripod diving, forward roll, cartwheel, modified tripod, transfer, curl, Jumps, leaps, turns, twists and log roll

### UNIT 6: KICKING & TRAPPING

**Unit Objectives/Enduring Understandings**

Students will be able to understand that the proper mechanics of ball skills, development of eye-hand coordination, visual tracking, and balance will be attained by performing fundamental skills during the course of the unit

**Guiding Questions:**

- What is a double dribble?
- What is travelling?
- What is dribbling?
- What is passing?
- What is shooting?
- What is the bounce pass?

**Purpose of Activities**

- Students will participate in gymnastics stunts, using different parts of their body to balance.
- Students will work cooperatively with their partners on gymnastics mats to complete balancing activities.

**Connections**

- English Language Arts Standards: Speaking and listening
- Mathematics: Number and Quantity

  **CCSS K.CC.1** Count to 100 by ones and by tens.

  **CCSS7.K.CC.3** Write numbers from 0 to 20. Represent a number of objects with a written numeral 0-20.
## UNIT 6: KICKING & TRAPPING

**PreK-2 SPIs**
- 1.2 Receive or send an object with an implement manipulative skills in structured settings
  - 1.2.1 Demonstrate mature motor patterns for basic locomotor, non-locomotor and selected or body part
  - 1.2.11 Use the inside or instep of the foot to kick a slowly rolling ball into the air or along the ground
  - 1.2.3 Acquire specialized skills basic to a movement form and use those skills with a partner
  - 1.2.21 State and demonstrate guidelines and behaviors for basic safety principles in physical
  - 2.2.2 Identify and demonstrate selected critical skill

**Suggested Activities**
- Individual & partner task & challenges, dribbling, trapping, passing, kicking, large group activities, Socci, kickball activities, hackeysacks, etc.
  - Hungry Hungry Students!
  - Soccer (Dribbling, Passing, Shooting)
  - Dribble Dash

• Student Discussion |

Follow basic activity and safety rules and explain why they are important.

Explain that practice and being healthy contribute to safe and improved performance.

2.5.4.D.1 Discuss the characteristics of good sportsmanship and demonstrate appropriate behavior as both a player and an observer during physical activity.

2.5.4.D.2 Describe activity-specific rules, explain their importance for the safety and enjoyment of participants, and follow the rules during physical activity.
# UNIT 6: KICKING & TRAPPING

**Academic Vocabulary:**

---

# UNIT 7: THROWING & CATCHING

**Unit Objectives/Enduring Understandings**
Students will be able to understand that the proper mechanics of throwing and catching various types of balls, develop eye-hand coordination, visual tracking, and balance will be attained by performing fundamental skills during the course of the unit.

**Guiding Questions**
How are hand-eye coordination and tracking important when trying to catch or throw a ball?

**Discussion**
- Students will know the and remember the 5 steps of throwing
- Students will use the 2 c’s to catch the ball
- Students will use their skills in game play settings

**Connections**
- English Language Arts Standards: Speaking and listening
- Mathematics: Number and Quantity
  - **CCSS K.CC.1** Count to 100 by ones and by tens.
  - **CCSS K.CC.3** Write numbers from 0 to 20. Represent a number of objects with a written numeral 0-20
  - **CCSS K.CC.4** Understand the relationship between numbers and quantities; connect counting to cardinality.
  - Throwing while multiplying
  - Reinforce the concept of odd and even numbers by using over- and underhand throws.
  - Integrate the skills of throwing and catching with the academic concepts of addition and subtraction.
## UNIT 7: THROWING & CATCHING

### Purpose of Activities
Throwing and catching is evident in majority of physical activities. It is important for students to learn how to throw and catch correctly with the proper steps. In order to throw for power and accuracy students must have correct form.

### PreK – Grade 2

#### PreK-2 SPIs
- Drops a ball and catches it before it bounces twice. (S1.E16.Ka)
- Catches a large ball tossed by a skilled thrower. (S1.E16.Kb)
- Catches a soft object from a self-toss before it bounces. (S1.E16.1a)
- Catches various sizes of balls self-tossed or tossed by a skilled thrower. (S1.E16.1b)
- Catches a self-tossed or well-thrown large ball with hands, not trapping or cradling against the body. (S1.E16.2)
- Throws underhand, demonstrating the critical elements of a mature pattern. (S1.E14.2)
- Throws underhand using a mature pattern. (S1.E13.1)
- Throws underhand with opposite foot forward. (S1.E13.K)

#### Suggested Activities
- Two Pass Catching
- Hot Potato Tag
- Throw and Catch Medley
- 6 and Switch with partner
- Sink the Ship (Battleship) - all grades enjoy this game
- Throwing Multiplied
- Throwing the odds and evens
- Throw and Catch Math Integration

#### Resources/Connections/Assessments

**Academic Vocabulary:** Step & Throw, ready position, opposite, serving, mechanics, throw, catch, Toss
## UNIT 8: RHYTHM & DANCE ACTIVITIES

### Unit Objectives/Enduring Understandings
The students will perform both non-locomotor and locomotor movements, while exploring the spatial, rhythmical and dynamic components of educational dance.

### Guiding Questions:
- How can I use my body to be creative, rhythmical way to communicate a have fun?
- How can I use non-locomotor movements in a rhythmical manner?
- What effect do rhythmical movements have on my body’s health?

### Discussion
- Safety and comfort during activity.
- Rhythm and the concepts of moving in space
- Can students learn the designed dances?
- Can students move on the beat and dance to the tempo?

### Connections
- English Language Arts Standards: Speaking and Listening
  During daily lessons, letter/phonics will be integrated into every lesson. Students will associate letter/works with the activities of the lesson. This learning opportunity is part of the elementary experience
- Mathematics: Number and Quantity
  - **CCSS K.CC.1** Count to 100 by ones and by tens.
  - **CCSS7.K.CC.3** Write numbers from 0 to 20. Represent a number of objects with a written numeral 0-20,
  - **CCSS K.CC.4** Understand the relationship between numbers and quantities; connect counting to cardinality.
- Science: Force, balance and speed
- Social Studies: Civics
### Purpose of Activities
- The students will create and perform movement patterns, using various movements and props. (1, 2)
- The students will use movements as a means of self-expression and communication (1, 2, 6) (H4)
- The students will recognize the impact that these activities have on the body.

### I Can Statement
- I can travel safely at different speeds, levels and pathways.

### Technology Implementation

### PreK-2 SPIS
- 1.1.4 Perform a simple movement pattern using rhythmic activities
  - demonstrate the role of body movement in the expression of feelings and ideas
  - understand the role of rhythmic activities in social development
  - create a simple three part movement sequence
  - participate in a wide variety of rhythmic activities that involve locomotion, non-locomotion, and the manipulation of various objects
  - demonstrate the relationship between body movement and rhythmic accompaniment
- 2.1.5 Recognize the concept of time in response to rhythmic accompaniment
  - use movement concepts for the purpose of expression
  - use the concept of time in response to rhythmic accompaniment

### Suggested Activities
- Line dances, square dancing, popular dances, creative dances, folk dance, lummi sticks, Cup Rhythm Routine, rhythm activities, tinkling, circle dances, follow the leader dances, Wii activities, partner/small group dances
- Act out stories to music or interpret a piece of music through movement. The teacher can guide the class with cues, such as “How would a bunny move to this music?”, or “Show me how you would move to this music in snowshoes”.
- Lummi Stick Macarena
  - http://www.pecentral.org/lessonideas/ViewLesson.asp?ID=5262#VjfadFlngUM
- The Old Brass Wagon Hoop Dance
  - http://www.pecentral.org/lessonideas/ViewLesson.asp?ID=1296#Vjfat1ngUM
- This Land is Your Land Shaker Routine
  - http://www.pecentral.org/lessonideas/ViewLesson.asp?ID=3309#Vjfa7FlngUM

### Resources/Connections/Assessments
- Self-Evaluation/Reflection: Look at video tape of class performance and identify: one time I moved safely; and one thing I noticed about myself.
- Peer Evaluation: Video tape the class doing an activity which requires movement to music or rhythm with partners and within a large group.
- View the tape and identify: someone who did not bump into anyone during the activity; people who found partners quickly; someone who moved well to the music; and someone who looked happy.

### Kindergarten Outcomes

### Grade 1 Outcomes

### Grade 2 Outcomes

---

Shelby County Schools 2016/2017

## UNIT 9: VOLLEYING CONCEPTS

### Unit Objectives/Enduring Understandings
Students will be able to understand that the proper mechanics of ball skills, development of eye-hand coordination, visual tracking, and balance will be attained by performing fundamental skills during the course of the unit.

### Guiding Questions:
- Safety and comfort during activity.
- Gymnastics and the concept of balance.

### Purpose of Activities
- Students will participate in gymnastics stunts, using different parts of their body to balance.
- Students will work cooperatively with their partners on gymnastics mats to complete.

### Connections
- English Language Arts Standards >> Speaking and listening
- Mathematics >> Number and Quantity
  - **CCSS K.CC.1** Count to 100 by ones and by tens.
  - **CCSS7.K.CC.3** Write numbers from 0 to 20. Represent a number of objects with a written numeral 0-20.
  - **CCSS K.CC.4** Understand the relationship between numbers and quantities; connect counting to cardinality.
- Science
- Social Studies-
## UNIT 9: VOLLEYING CONCEPTS

### PreK-2 SPIs

| 1.1.2 | Receive or send an object with an implement or body part |
| 1.2.14 | Strike an object repeatedly with a paddle or body parts |
| 1.2.21 | State and demonstrate guidelines and behaviors for basic safety principles in physical education (implements, small and large equipment, environment) |
| 2.2.2 | Identify and demonstrate selected critical elements of manipulative skills |

### Suggested Activities

- Individual and partner tasks & challenges, small and large group activities, modified volleyball (using balloons, beach balls, & volley balls)

### Resources/Connections/Assessments

### Kindergarten Outcomes

- Volley a lightweight object (balloon), sending it upward

### Grade 1 Outcomes

- Volley an object with an open palm, sending it upward

### Grade 2 Outcomes

- Volley an object upward with consecutive hits

### Unit Assessment: Teacher Observation, Skill Testing, Game Play, Progression of Skills

### Creative and Critical Thinking Skills

- **Concepts**
  - Proper Mechanics of Kicking Skills
    - Eye-Foot Coordination Visual Tracking Balance
- **Skills**
  - Fundamental Skills
    - Balancing
    - Catching

### Instructional Actions

- **Activities/Strategies**
  - Ball on Your Body
    - Control and pass beach balls while standing still and while

### Assessment

- Group Work
- Pre and Post Skill Assessment
- Rubrics

### UNIT 9: VOLLEYING CONCEPTS

<table>
<thead>
<tr>
<th>Follow basic activity and safety rules and explain why they are important.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Explain that practice and being healthy contribute to safe and improved performance.</td>
</tr>
<tr>
<td><strong>2.5.4.D.1</strong> Discuss the characteristics of good sportsmanship and demonstrate appropriate behavior as both a player and an observer during physical activity.</td>
</tr>
<tr>
<td><strong>2.5.4.D.2</strong> Describe activity-specific rules, explain their importance for the safety and enjoyment of participants, and follow the rules during physical activity.</td>
</tr>
</tbody>
</table>

#### Introduction

The students will be quizzed through a series of challenges using balls of different size and texture. While developing tactile senses the end result will be the discovery of the proper mechanics of ball skills, the development of hand eye-coordination, visual tracking, and balance.

#### Safety

- Make sure all balls are properly inflated
- Never stand on any type of ball
- Never throw or kick a ball at another student

**Passing**

- Overhead Pass
- Forearm Pass

**Demonstrate basic forearm pass skill**

- Overhead Pass
- Hit-N-Run
- Net Zone 3v3
- Keep 'em Movin'
- Passing Lane
- Forearm Pass Shuffle Off
- Two-Side Tag

**Teacher Observation Conferencing**

**Product/Performance Peer Observation**

**Self-Analysis**

**Student-led Peer Portfolio Oral and/or Cognitive Quizzes**

### Resources

- [www.pe4link4u.org](http://www.pe4link4u.org)
- [www.classroomteacher/integrat edlessonideas.com](http://www.classroomteacher/integrat edlessonideas.com)
- [www.linelinks.com](http://www.linelinks.com)

**Academic Vocabulary:** Balance, Ball, Beach, Beat, Beaten, Bending, Bettering the ball, Bounce, Bump, Cues, Point, thumbs-up

### UNIT 10: FITNESS CONCEPTS

**Unit Objectives/Enduring Understandings**

Students will incorporate fitness and wellness concepts to achieve and maintain a health enhancing level of physical fitness. The intent of this standard is the development of students’ knowledge, skills and willingness to accept responsibility for personal fitness, leading to an active, healthy lifestyle.

Students develop higher levels of basic fitness and physical competence as needed for many work situations and active leisure participation. Health-related fitness components include cardio-respiratory endurance, muscular strength and endurance, flexibility and body composition.

- There are many different ways to move.

**Discussion**

- Safety and comfort during activity.
- Wellness the concept of fitness

**Purpose of Activities**

- Achieves and maintains a health enhancing level of physical fitness.
- Develops knowledge, skills, and attitudes towards achieving physical fitness.
**UNIT 10: FITNESS CONCEPTS**

**I Can Statements**

- I can use different body parts to move objects.
- Movement is fun.
- Participating in an activity is fun.
- I feel good when I exercise.
- Playing with friends makes activities more enjoyable.
- It is important to be nice to everyone

**Guiding Questions:**
- What can I do to improve my personal best scores on my fitness/skill assessments?
- How does exercise improve my mood?
- Why is it important to consider enjoyment and wellness when choosing activities to use in your personal fitness plan?
- How do I keep my level of fitness the same or better over the summer months?
- Why is it important to be physically fit and how can I stay fit?

**Connections**

- English Language Arts Standards: Speaking and Listening - ABC Order, Fact, Fiction, or Fairy Tale, Sentence Structure, Journaling, Vocabulary
- Social Studies - laws, rules, cooperation/conflict, cooperation/conflict, community
- Science - movement, space, speed, gravity, friction, energy, force, muscles, skeletal system
- Math - speed, time, patterns, sequence, grouping, levels, counting, estimation, scoring in games and activities.

**Technology Implementation:** pedometers and heart rate monitors

**I Can Statements**

- I can apply movement concepts of balance, effort, force, and speed to move safely in personal (self) and general (shared) space.
- I can look for ways to stay moving and active when I am at home or away from school.

---

**PreK-2 SPIs**

1.0 Engage in sustained physical activity that causes an increased heart rate

Participate fully in activities related to cardiovascular fitness and muscular endurances

Identify physiological changes to the body that take place due to moderate to vigorous physical activity.

Exhibit respect to everyone and everything

4.B Recognize the physiological indicators that accompany moderate to vigorous physical activity

**Suggested Activities**

- Surfing Warm-Up
- Running Through the Forest
- "Make Time for Fitness" course
- Clap and Move
- Magic Tag
- The 12 Days of Fitness
- PACER
- Fitness Graham
- Sports Galore
- Jump Start Your Heart

### Video
- Kids Get Fit
- You've Got to Move

### Assessments
- Group Work
- Pre and Post Skill Assessment
- Rubrics
- Teacher Observation
- Conferencing
- Product/Performances
- Self-Analysis
- Student-led Peer Portfolio Oral and/or Cognitive Quizzes
- Peer Observation

### Kindergarten Outcomes
- Recognizes that when you move fast, your heart beats faster and you breathe faster. (S3.E3.K)
- Actively participates in physical education class. (S3.E2.K)
- Identifies active-play opportunities outside physical education class. (S3.E1.K)

### Grade 1 Outcomes
- Discusses the benefits of being active and exercising and/or playing. (S3.E1.1)
- Actively engages in physical education class. (S3.E2.1)
- Identifies the heart as a muscle that grows stronger with exercise, play and physical activity. (S3.E3.1)
- Identifies physical activities that contribute to fitness. (S3.E3.2b)

### Grade 2 Outcomes
- Describes large-motor and/or manipulative physical activities for participation outside physical education class (e.g., before and after school, at home, at the park, with friends, with the family). (S3.E1.2)
- Actively engages in physical education class in response to instruction and practice. (S3.E2.2)
- Uses own body as resistance (e.g., holds body in plank position, animal walks) for developing strength. (S3.E3.2a)
## UNIT 10: FITNESS CONCEPTS

**Unit Assessment:** Teacher Observation, Skill Testing, Game Play, Progression of Skills

---

## UNIT 11: TRACK & FIELD CORE CONCEPTS

**Unit Objectives/Enduring Understandings:**
Track and field is a great sport to measure athletic ability compared to other students in their grade. The different events measure the different types of athletic ability.

**Guiding Questions**
What are the different events in track? How can you improve your score?

**Discussion**

**Purpose of Activities Connections**
- English Language Arts Standards: Speaking and Listening
- Mathematics: Number and Quantity
  - **CCSS K.CC.1** Count to 100 by ones and by tens.
  - **CCSS7.K.CC.3** Write numbers from 0 to 20. Represent a number of objects with a written numeral 0-20
  - **CCSS K.CC.4** Understand the relationship between numbers and quantities; connect counting to cardinality.
- Science
- Social Studies
## UNIT 11: TRACK & FIELD CORE CONCEPTS

### PreK-2 SPIs

1.0 Engage in sustained physical activity that causes an increased heart rate
Participate fully in activities related to cardiovascular fitness and muscular endurances
- Students will learn the different events in track
- Students will see how they measure up to other students
- Students will see how well their cardiovascular endurance is

### Suggested Activities

- Dynamic Warm Ups
- Form running
- High knees
- Bootie Kicks
- High Knee Skips
- Basketball Slides
- Carioca
- 50% Sprints
- 100% Sprints
- Legs and feet

### Activity Purpose

It is important to track student progression at such a young age. Fitness testing data must be tracked in the beginning of the year and at the end of the year. This will act as a formative assessment for the teacher to see what they must continue to work on.

### Equal Weight Distribution, Forward Lean, Eyes Down

- Understand and demonstrate the critical elements of a standing start – equal weight distribution, forward lean, eyes down.

### Activity Purpose

**Well Rounded II**
- Springy feet
- The Tight Rope
- Foot Fire

### Teacher Observation Conferencing
- Product/Performance Peer Observation
- Self-Analysis
- Student-led Peer Portfolio Oral and/or Cognitive Quizzes

### Well Rounded II

- Springy feet
- The Tight Rope
- Foot Fire

## UNIT 12: FIELD DAY

### Participate in task specific activities while following the rules and procedures

### Participate in task specific activities while following the rules and procedures

### Participate in task specific activities while following the rules and procedures

### Unit Assessment: Teacher Observation, Skill Testing, Game Play, Progression of Skills

### Cumulative Progress

**Explain why good sportsmanship is important and demonstrate positive behaviors during participation.**

Follow basic activity and safety rules and explain why they are important.

**Explain that practice and being healthy contribute to safe and improved performance.**

**2.5.4.D.1** Discuss the characteristics of good sportsmanship and demonstrate appropriate behavior as both a player and an observer during physical activity.

**2.5.4.D.2.** Describe activity-specific rules, explain their importance for the safety and enjoyment of participants, and follow the rules during physical activity.

### Content Objectives

#### Concepts

- Proper Mechanics of Kicking Skills
  - Eye-Foot Coordination
  - Visual Tracking Balance
  - Eye-Foot Coordination

#### Skills

- **Fundamental Skills**
  - Balancing
  - Punching
  - Bouncing
  - Pushing
  - Catching
  - Spinning
  - Kicking
  - Passing
  - Jumping, skipping, sliding, hopping, galloping
  - Throw

#### Instructional Actions

- Activities/Strategies

#### Assessment

- Teacher Observation Group Work
- Student–led activities

### Academic Vocabulary:

---

*Sherby County Schools 2016/2017 42 of 47*
## Cross-Content Connections:

**English:** communication, following directions, listening skills

**Health:** body systems, first aid, problem solving, decision-making, peer pressure, wellness, health, fitness, nutrition, drugs and alcohol, mental, emotional, social and family health, disease prevention, community, consumer and environmental health issues

**Social Studies:** laws, rules, cooperation/conflict, cooperation/conflict, community

**Dance:** alignment, axial movement, elevation, body propulsion, initiation, rhythmic acuity

**Science:** movement, space, speed, gravity, friction, energy, force, muscles, skeletal system

**Math:** speed, time, patterns, sequence, grouping, levels, counting, estimation, scoring in games and activities.

**Music:** beats, rhythms, syncopation, timing

**Character Education:** cooperation, self esteem, values, personal accountability, personal responsibility, respect, conflict resolution

## Physical Education Domains

### Psychomotor Domain
1. Place a variety of body parts into low, medium, and high levels.
2. Jump and land using a combination of one and two foot takeoffs and landings.
3. Roll smoothly in a forward and backward direction without stopping or hesitating.
4. Transfer weight from feet to hands, at various speeds using large extensions.
5. Designs gymnastics sequences that combine traveling, rolling, balancing, jumping, with flowing sequences that change in direction, speed, and flow.
6. Move each joint through a full range of motion.
7. Support, lift, and control body weight in a variety of activities.
8. Correctly demonstrate activities designed to improve and maintain muscular strength and endurance, flexibility, and cardio respiratory functioning

### Cognitive Domain
1. Children learn the movement concepts and principles that underlie the movement.
2. State guidelines and behaviors for the safe use of equipment and apparatus.
3. Identify ways movement concepts can be used to refine motor skills.
4. Analyze potential risks associated with physical activities.

---

### Resources

**Professional Organizations:**

**National PE Standards & Performance Outcomes:**
- www.shapeamerica.org/standards/pe/index.cfm
- TN State PE Standards:

**Professional Development:**
- CMCSS Physical Education In-Services (check PLAN for current listing)
- TAHPERD Annual Physical Education Conference (Fall of each year)

**DVD’s or Videos:**
- Yoga for Kids
- Discover Me
- 20 Critical Thinking and Problem Solving Activities
- Jumping with Jump Bands
- In-School Bowling Instructional Video
- Ready, Set, Jump (AHA)
- Born to Move
- Kids Get Fit
- You’ve Got to Move
- Christy Lane’s Latin Dancing
- Geomotion
- Sportstacking
- Totally Healthy You
5. Detect, analyze, and correct errors in personal movement patterns.

**Affective/Social Domain**
Accept the feelings that result from challenges, successes, and failures in physical activity.
1. Develops self-concept
2. Participates with and shows respect for persons of similar and different skill levels.
3. Develops cooperation skills
4. Provides opportunities for enjoyment as children climb, swing, hang, roll, jump, or twirl.
